# SCAN CELL TRAININGS

**Proactive surveillance and detection  
of threats and malicious acts**

JUNE 17, 2020

# DEVELOP YOUR HUMAN BEHAVIOR RECOGNITION SENSE, TO BECOME A PROACTIVE THREAT & SUSPICIOUS BEHAVIOR DETECTION SPECIALIST

**Benefits from available Government programs and subventions for human resources talents development.**

## CONTEXT

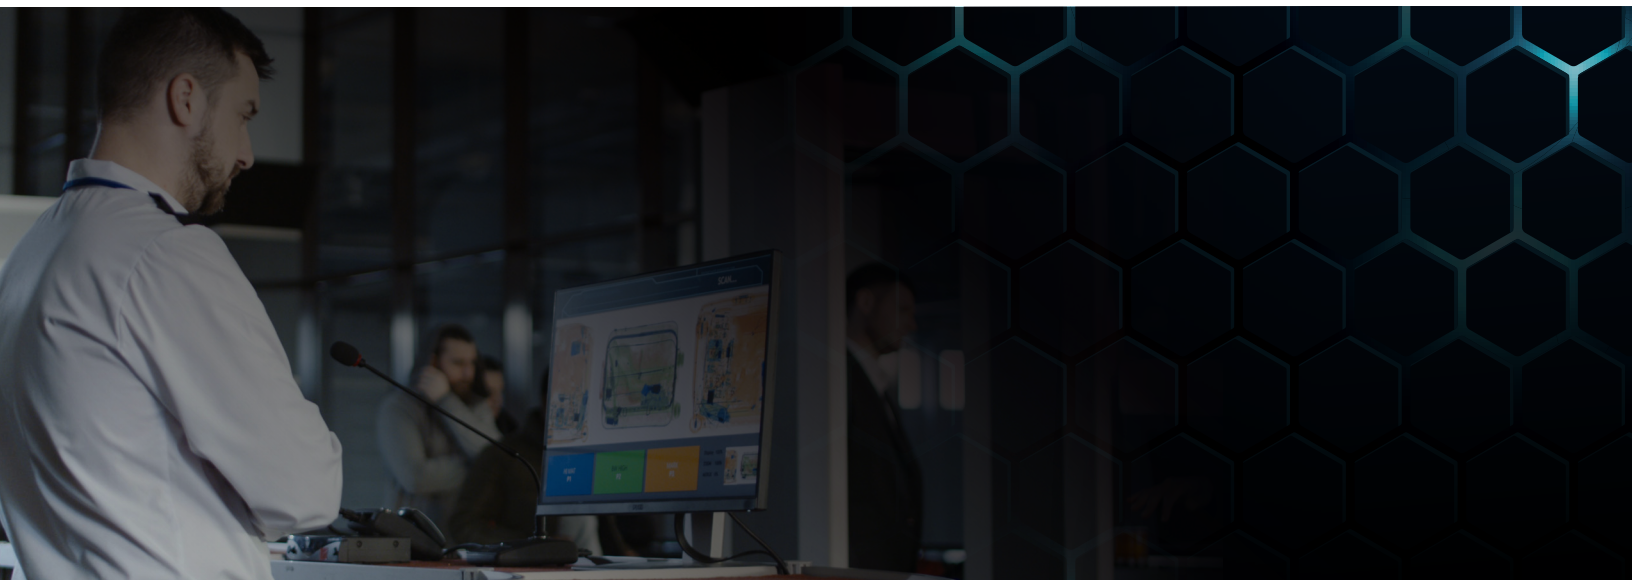

At the heart of all gathering, individual security and protection are fundamental. Even though the majority of the people attending a public area or an event are benevolent, some ill-intentioned ones will exploit available opportunities to set in motion malicious activities.

Nowadays, threats may occur at any given moment and it is necessary for your team to be trained and ready to identify potential threats in order to intervene proactively. Ranging from shoplifters, pickpockets to terrorists, these are real and imminent phenomena we must all deal with, both organizers and users.

## DETECT ANY THREAT WITHOUT BEING SEEN

As part of their work, all security specialists and other related specialists must anticipate any potentially problematic situations and be able to identify all suspects.

Proactivity enables your team to anticipate and act accordingly with justified observations in order to swiftly intervene against a malicious act.

# SCAN CELL TRAININGS

**Our SCAN Cell trainings answer to a realistic and urgent need to integrate innovative specialized tools to enhance the level of security within proactive prevention measures.**

## OBJECTIVES

- ✓ BECOME PROACTIVE IN RISK PREVENTION
- ✓ OFFER AN IMPROVED PROTECTION FOR THE POPULATION
